Founded in 1975, Pegasus is a PATH International Premier Accredited Center

April 20, 2020

Pegasus is one month into our emergency Covid-19 plan and we are safe, the herd is healthy and Pegasus is meeting its organizational sustainability goals during this challenging time. We are researching the National, State and Local requirements we will need to reopen our services as soon as we are allowed. Our research is based on the Reopening America Again plan, the CDC guidelines and NY/CT guidelines. We will be strong and ready to open with full health and vigor, return our staff and get back to serving our families with our amazing life changing programs.

Due to Federal and State Guidelines for Covid-19, Pegasus is unable to reopen on May 4. In accordance with these guidelines, we will be postponing all spring programs again until further notice. In the meantime, we will continue to plan for resuming program and adding additional programs where possible. We will also begin tasks to account for all the modifications that we need to run program safely once we open.

**In an effort to stay connected with our community, Pegasus will begin hosting Zoom calls. Stay tuned for further details.**

These are historic times and challenges. Thank you all for being supportive and patient as we make it through! We miss all of you tremendously and can't wait to get you back on the farm!
